VINCE POSCENTE

“Full Speed Ahead”

Sponsored by:

Property & Inland Marine

Thursday, July 11 | 10 - 11 a.m. | Fort Worth Convention Center Ballroom - 2nd Floor

Vince Poscente, one of the most in-demand speakers today, is an expert on resiliency—the ability to overcome setbacks and breakthrough even stronger than ever before. His client list includes top organizations with one thing in common: they understand that success is not just about reaching your goals and getting what you want. There also has to be an intent to handle setbacks and overcome obstacles and end up smarter, stronger and more focused than ever before, Vince knows first-hand the power that attitude, determination and innovation play in your future success—especially when life doesn’t go as planned.

So, what are your teams’ obstacles? The economy? Competition? Negative attitudes? Low productivity? Vince will help you supersede challenging barriers. Vince is the #1 go-to guy for taking a team and teaching them how to lead better. Produce more. Sell more. And move past the obstacles and into a mental space that creates the kind of success you and your team want and deserve.

This is NOT Vince just telling his story. Because everybody has a story. This is about Vince sharing strategies and solutions that will definitely change how your team handles crises.

Problems. Competition. And change. Without understanding resiliency and the absolute importance it plays on everything and everyone—your team will not have the skills they need to overcome the things that will inevitably stand in their way.

After his program, meet Vince in Great American’s booth #901 to get a signed book on first come, first serve basis.

Half of the Texas Senate's and all the Texas House of Representatives' seats are on the November ballot, and TAB is closely monitoring all the contested races while working with the those who do not have opponents and will be members of the 89th Legislature. The panel will discuss the Interim Charges that Lt. Gov. Dan Patrick and House Speaker Dade Phelan have issued that could have an impact on the residential construction industry as bills begin to be filed the first Monday after the November general election. This education session will give you a glimpse into all the hard work that our government relations team does year-round, whether the legislature is in session or not, to protect the Texas homebuilding industry.

The SCREENEZE system was invented in response to frustrations with traditional methods to screen a porch. SCREENEZE is a no-spline, self stretching system that stays tight and spans up to 150 SQ FT. Our snap technology secures and stretches the screen. The SNAPTRACK system was invented in 2020. Both systems use the same snap technology, however, they have different profiles and SNAPTRACK hides the screws! In 2022, we introduced The Sliding Screen Door.
